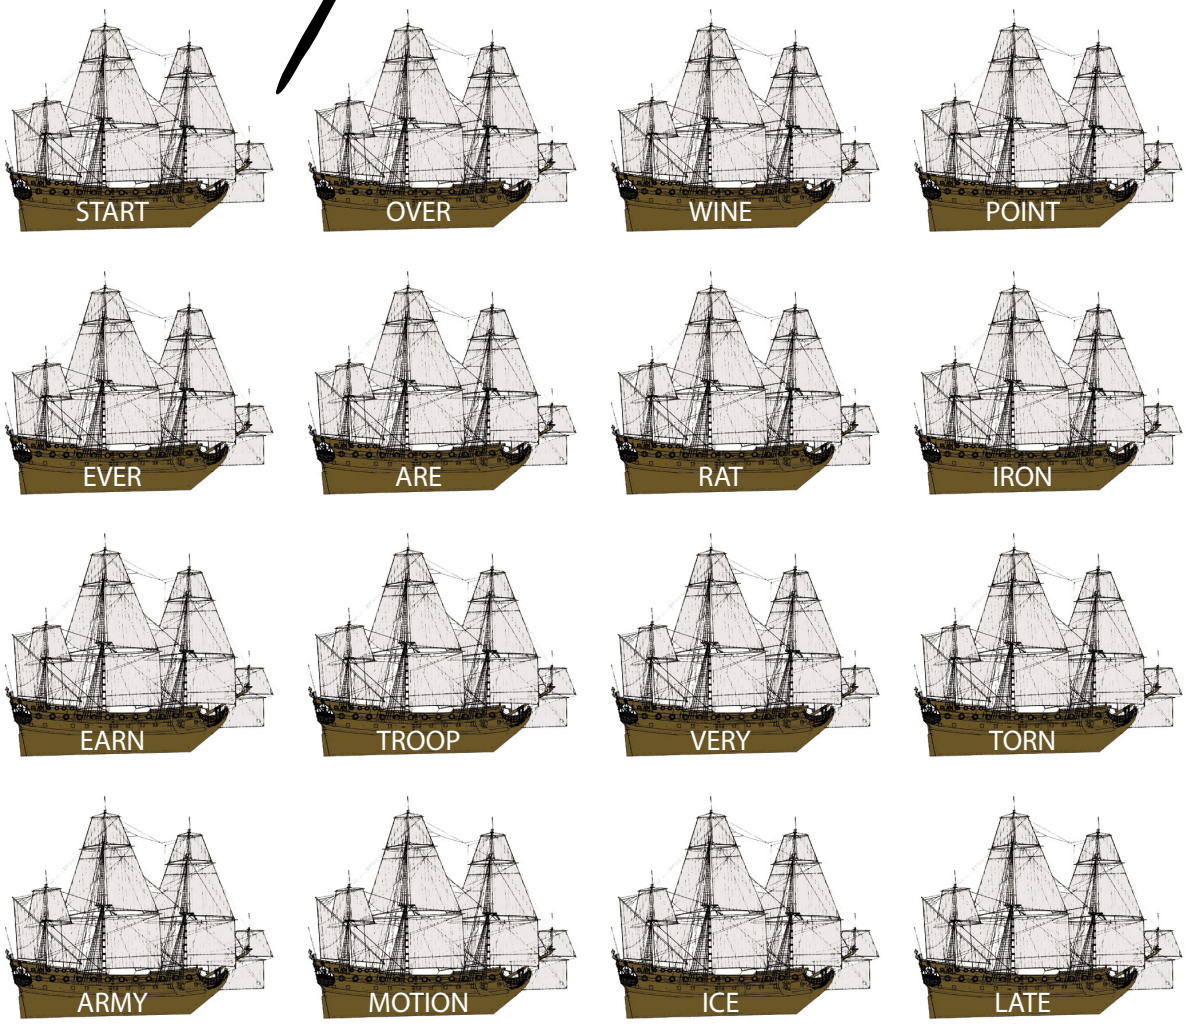
Shipwrecked



Begin at the first ship labeled START. Take the last letter of this word (T) and find a word in the same column or row (up and down or straight across) to which the letter T can be added to form a new word.

For example, you may add T to WINE, which forms the word TWINE. Only one route will get you to the end. Check off each ship as you come to it.

Once you've reached the final ship (marked LATE), there will be 7 unmarked ships remaining. Rearrange the first letter of these 7 ships to form Clue #5. Hint: The word means one who loves and defends his or her own country.

Clue #5: ☐☐☐☐☐☐☐
